

# ALL CHEM T-100

ULTRA CONCENTRATED, SOLVATED-SURFACTANT BLEND FOR TOUCH FREE WASHES

## **DESCRIPTION:**

Near waterless, reclaim compatible blend is designed to be used in a DUAL DRAW application with an alkaline or acidic solution creates an amazing cleaning combination for touch-free conveyer or in-bay washes!

Ultra concentrated product washes the same amount of vehicles using only 5 or 15 gallon drums instead of a 30 or 55 gallon drum of basic concentrate!

## **CONTAINER SIZES:**

5-gallon, 15-gallon

## **PHYSICAL PROPERTIES:**

COLOR	Red
ODOR	Ether Like
pH @ 100%	7-9
VOC's	<22%
SPECIFIC GRAVITY	0.92-0.96
FORM	Aqueous

## **CAUTIONS:**

Contains a high amount of solvents and surfactants: causes irritation and dryness if gotten on skin. Wear adequate eye and skin protection when handling. Store at room temperatures and out of direct sunlight.

## **ADVANTAGES:**

When used with our Boost-it HI or LO this combination will create un-matched results and can replace the need for multiple drum products in touch-free conveyer/in-bay car washes.

Eliminate the need for standard concentrate 30 or 55 gallon drum type products.

Special wetting, penetrating and emulsifying surfactants coupled with high solvency removes oily and particulate soils leaving glass and bodies clean!

High Foaming! Readily Biodegradable!

5-gallons will treat 640-1200 vehicles depending on application!

## **DILUTION RATIOS:**

Lo pH Pre-Soak: 1:300-500

Hi pH Pre-Soak: 1:150-360  
(15-30 mL per car)

High Pressure Soap: 1:1800-3000

Tire/Rim Cleaner: 1:50-100

Dual draw Hydrominder eductors are available for purchase!
