

ALTER-CLEAN™ SYSTEM

2-PART ALKALINE CLEANING SOLUTION

DESCRIPTION:

This 2-part "liquid" system consists of a powerful Base product and a Boost product designed to be used in a dual draw injection system creates a solution that can be "altered" to serve many applications from: touch-less pre-soak, high pressure soap, tire cleaner, bug remover and more.

CONTAINER SIZES:

5-gallon, 15-30-55 gallon, 275-gallon

PHYSICAL PROPERTIES:

BASE

COLOR	Amber
ODOR	Detergent
pH @ 1%	12.0-13.0
VOC's	None
SPECIFIC GRAVITY	1.15-1.20
FORM	Aqueous

BOOST

COLOR	Red
ODOR	Citrus
pH @ 1%	7 to 8
VOC's	<30
SPECIFIC GRAVITY	0.96-0.98
FORM	Aqueous

CAUTIONS:

Contains Sodium Hydroxide & Potassium Hydroxide (Base): causes severe irritation, burns and sores. Wear adequate eye and skin protection when handling. Store at room temperatures and out of direct sunlight. Do not apply to polished aluminum surfaces.

ADVANTAGES:

2-part liquid system eliminates many other single drum products as it is formulated to suit several applications.

Provide operators with a flexible solution that can be "altered" for a specific application or throughout seasonal change.

High Foaming! Citrus Scented!

Reclaim Compatible! Readily Biodegradable!

The "Boost" is available with dye to produce colored foam!
