

APPEAL N SEAL

FOAMING DRYING AGENT / SEALANT

DESCRIPTION:

Clear coat protectant with drying agent properties produces eye catching "light blue foam" and a strong scent so they know they are applying it.

Designed to be applied in self serve high pressure applications but can also be applied in low pressure foaming applications as well.

CONTAINER SIZES:

5-gal Pail, 15-30-55-gal Drum, 275-gallon Tote

PHYSICAL PROPERTIES:

COLOR	Dark Blue
ODOR	Cherry
pH @ 100%	5 to 6
VOC's	<8%
SPECIFIC GRAVITY	~1.0
FORM	Aqueous

CAUTIONS:

Eye & Skin Irritant. Wear adequate eye and skin protection when handling. Store at room temperatures and out of direct sunlight! Do not expose this concentrate to cold temperatures (<40°F).

ADVANTAGES:

Produces visible light blue, fast breaking foam in high pressure applications that shows the customer they are receiving the product.

Instantly repels the water from the surface leaving it drier, shinier and protected.

Cherry scented.

DILUTION RATIOS:

High Pressure Wand:
Apply product diluted 1:350-600+

Low Pressure Arch:
Apply product diluted 1:120-240+

Your customers will see the difference!
