

BAY BRITE

ACIDIC FLOOR AND WALL CLEANER

DESCRIPTION:

Aggressive acidic solution utilizing a small amount of bi fluoride and other acids removes rust, oxidation, efflorescence, soap scum and more from walls, floors and metal surfaces.

CONTAINER SIZES:

5-gallon, 15-30-55-gallon, 275-gallon

PHYSICAL PROPERTIES:

COLOR	Clear
ODOR	Slight yet acrid
pH @ 1%	2.0-3.0
VOC's	None
SPECIFIC GRAVITY	1.10-1.20
FORM	Aqueous

CAUTIONS:

Contains Bi Fluoride, Phosphoric Acid & Sulfuric Acid: will cause irritation, burns or sores. Wear adequate eye and skin protection when handling. Store at room temperatures and out of direct sunlight. Keep off of clothing! Read MSDS before using!

ADVANTAGES:

Aggressive solution is fast acting and performs on the dirtiest of surfaces.

Can be used on glass, brick, cement, FRP, aluminum, tile and more.

Low odor blend makes it easier to work with!

"Chloride" acid free keeps steel surfaces from pitting or rusting keeping them looking new!

High foaming for enhanced vertical cling and is inhibited to protect from corrosion!

DILUTION RATIOS:

Dilute 1:1-5 for heavy cleaning

Dilute 1:8-20 for normal cleaning

Dilute 1:25-100 for a mild acid wash
