HI pH, HIGH PRESSURE PRE-SOAK

DESCRIPTION:

High foaming alkaline detergent designed for use in high pressure wands but is certainly not limited too.

Works better than conventional high pressure soaps, boosted alkalinity and deep cleaners remove oils, bugs and grime more consistently!

CONTAINER SIZES:

5-gal Pail, 15-30-55-gal Drum, 275-gallon Tote

PHYSICAL PROPERTIES:

COLOR	Yellow
ODOR	Lemon
pH @ 1%	11.5-12.5
VOC's	<5%
SPECIFIC GRAVITY	1.04-1.06
FORM	Liquid

CAUTIONS:

Contains Sodium Hydroxide: causes extreme irritation, burns and sores. Wear adequate eye and skin protection when handling. Store at room temperatures and out of direct sunlight. Do not apply to polished aluminum surfaces.

ADVANTAGES:

Increased alkalinity and detergency helps this product to break down road film and soils more efficiently than conventional high pressure soaps.

High foaming yet is fast rinsing and is hard water tolerant.

Speed up prep time in conveyer washes!

Biodegradable!

Produces a mild lemon scent and high suds!

DILUTION RATIOS:
