

# CLING ON

## GELLING BUG REMOVER

### **DESCRIPTION:**

Special solution "thickens" when diluted creating a "clinging" effect on surfaces maximizes cleaning performance! The prolonged contact time dissolves bugs, bird droppings and other tacky soils more effectively!

### **CONTAINER SIZES:**

5-gal Pail, 15-gallon drum

### **PHYSICAL PROPERTIES:**

COLOR	Neon Green
ODOR	Fresh/Ether like
pH @ 2%	10.5-11.5
VOC's	<8%
SPECIFIC GRAVITY	1.03-1.06
FORM	Aqueous

### **CAUTIONS: EYE & SKIN IRRITANT**

Contains Potassium Hydroxide: causes moderate irritation on skin in concentrated state. Wear adequate eye and skin protection when handling. Store at room temperatures and out of direct sunlight. Do not apply to polished aluminum components stronger than 1:15.

### **ADVANTAGES:**

Clings to surfaces, maximizes contact time!

Slows drying rate on hot surfaces allowing you to safely apply it to many surfaces and vehicles waiting in line without worry!

Highly concentrated yet is economical!

Readily Biodegradable uses no: phosphates or phenolic surfactants!

Fast rinsing!

Fresh Scented!

### **DILUTION RATIOS:**

Dilute 1:20-48

Best if applied to a cool surface, allow dwelling for up to 1-2 minutes then brush or removing with high pressure rinse. Repeat as necessary. Do not allow to dry if possible! This cleaner will remove light oxidation!!
