

# DOUBLE ACTION #1 & #2

2-Part Liquid Alkaline Tire, Wheel & White-letter Cleaner

## **DESCRIPTION:**

Powerful solution is so highly concentrated we had to make it in 2-parts! This combination is for use in a dual injection system makes easy work of the dirtiest wheels, tires and white-letters!

Double Action #1 serves as the alkaline source while Double Action #2 contains the surfactants and solvents!

Allow operators to be able to "tweak" the level of alkalinity or detergency to desired strength depending on application and for seasonal change.

## **CONTAINER SIZES:**

5-gallon, 15-30-55-gallon, 275-gallon

## **CAUTIONS:**

Double Action 1: Corrosive.  
Sodium Hydroxide & Potassium Hydroxide.

Double Action 1NC: Skin Irritant:  
Sodium Metasilicate.

Double Action 2: Surfactant & Glycol Ether.

Store at room temperatures and out of direct sunlight. Avoid contact with eyes and skin. Do not breathe mists! Wear eye and skin protection!

## **ADVANTAGES:**

Create an amazing tire, white wall and rim cleaner when used in conjunction with Double Action #2.

Provide operators with a flexible solution that can be "altered" for a specific application or throughout seasonal changes.

Can be used for multiple applications!

Readily Biodegradable! High Foaming!

Reclaim Compatible!

Use Double Action #1NC if a non-caustic product is desired!
