

H2OFF

ECONOMICAL FAST ACTING DRYING AGENT

DESCRIPTION:

Concentrated yet economical drying agent removes water from old or new vehicle surfaces leaving them dry and shiny.

CONTAINER SIZES:

30-55-gal Drum, 275-gallon Tote

PHYSICAL PROPERTIES:

COLOR	Yellow / Red
ODOR	Amine / Fruity
pH @ 100%	7 to 8
VOC's	<10%
SPECIFIC GRAVITY	~0.97-0.98
FORM	Aqueous

CAUTIONS:

Contains: Quaternary Surfactants: causes extreme eye irritation. Wear adequate eye and skin protection when handling. Store at room temperatures and out of direct sunlight. Eye Irritant! Do not freeze or expose to temperatures under 40 °F.

ADVANTAGES:

Economical concentrate works effectively and affordably on old or new surfaces.

Displays ultra fast beading making it excellent for short drip space!

Cold weather stable!

Use in low or high pressure applications.

Available with berry scent for added appeal!

DILUTION RATIOS:

High or Low Pressure: Dilute 1:120-500+ or inject .5-3 oz per vehicle.

Concentration will depend on the amount of water on the surface.

Adjust until optimal performance is achieved. Start strong and slowly decrease concentration to pin point the best performance and application cost.
